Re: World Trade Center Recovery Effort.

Dear Mr. Adams;

On Behalf of the City of New York, Department of Design & Construction, I would like to thank you and your team for the tremendous job installing the software and website for the time lapse photography at the World Financial Center 3. Your equipment has been of critical value to the recovery operation.

We would like to recognize your effort and dedication performing long hours of work to complete the task in the short amount of time allowed. The quality and excellence of the work is greatly appreciated. Please thank your team for their incredible effort.

Sincerely,

Rebecca J. Clough, RLA
Program Director

December 7, 2001

Dear Bob,

I am writing to thank you for the incredible work you and your team performed on the World Trade Center Recovery Effort project in New York City. Lynx PM provided software and a website for time lapse photography and coordinated the camera project.

The work at the WTC site was done under difficult conditions with severe time constraints. You and your team were stretched to the limit, but you managed to work extremely long hours and provide excellent quality work.

I am sincerely sorry much of the camera project was cancelled at the site. What was done impressed all of the site management team. I hope we can work together again in the future.

Thank you, again, Bob. I appreciate your incredible effort.

Sincerely,

Raymond J. Menard
Senior Vice President, Development
Criticom International Corporation
